CONSISTENCY COMMUNICATION

TEAM WORK ATTENTION TO DETAIL

PROFESSIONAL SUMMARY

An individual with a keen interest in software programs, possessing good interpersonal, analytical, and problem-solving skills, who wishes to use technical knowledge to cater to the needs of the company.

PROJECT WORKS

THIRDSTEP   February, 2023

Description: It's a fully functional E-commerce website for selling shoes of all types built as a collaborative project.

Tech Stack: HTML, CSS, JavaScript for frontend
JSON server for the backend

Areas of Responsibility:
- Lead a team of five people
- Built the whole backend of the website
- Designed and developed the register/login and admin pages in the front end.

TimeTrackerX   March, 2023

Description: Employee and work management app

Tech Stack: HTML, CSS, JavaScript for frontend
NodeJS, ExpressJS and MongoDB for backend

Features and Works:
- Tracking the login/logout time of employees and storing it in the database
- Employees can implement CRUD operations for their projects, works schedules, meetings, away timings,etc.

PizzaPoint   January, 2023

Description: A dominos.com clone for selling pizzas
Tech Stack: HTML, CSS, JavaScript for frontend
JSON server for the backend

Features and Works:
- All important features are available here for the users like searching, sorting, logging in/logging out, and successfully placing the order with all the details.
- The project got shortlisted by Masai School as one of the best projects from my batch out of 350+ students for final round.

WORK EXPERIENCE

Freelance Web Design works   2020-2022

- Have worked as a freelance designer for 30+ clients to design their web pages, web banners, and social media posts.
